104-1004 Antenna 6dBi Outdoor

Ver: 1. Feb 2, 2024

Product description

This antenna provides 6 dBi gain with very broad coverage in all directions. It is suitable for both indoor and outdoor applications, but designed primarily for outdoor use. This antenna is lightweight and features an aesthetic white, fiber glass radome.

Designed for all weather operation, 104-1004 features a robust body and mounting kit that will withstand the forces of weather over time.

The antenna is supplied with a mast mount kit. This allows the antenna to be positioned for optimal performance. The mount can also be screwed directly onto a façade or the like.

104-1012 can be mounted to a 35 mm (1.4") to 50 mm (2") diameter masts.

The N female connector allows for the use of LumenRadio's outdoor rated coaxial cables without the need of any adapters.
